## PAMPERED POOCH!

I live in a small village near the coast where it can get quite chilly and my whippet Emi often feels the cold. I originally planned to buy her a dog fleece but then my eye caught my wool stash and I had an idea! I decided to crochet her one instead. It took me about a month to create as I did not follow a pattern but kept measuring her and trying it on for size! I think she likes her coat and it will help to keep her warm in the winter. I started to crochet at around eight years old and I usually have about three projects on the go. My dentist has recently asked me to crochet her a large molar for reception - so I have bought white wool and am now scratching my head!

## BEDTIME BUDDY

I've been crocheting for over six years. It was something I wanted to try because I couldn't quite grasp knitting. It suddenly clicked when I lost my gran six years ago. So, each project I do, I like to think she has helped me with it. I found making this sloth very enjoyable, and put some of my skills to the test. I have named him Bedtime Buddy the sloth.

## OUR MANE MAN

I have been crocheting for over 50 years since I was 17 and my main speciality is amigurumi animals. My Rasta Lion is

taken from a pattern I found which I have adapted with my own style. I am currently making another one in a different colourway. I usually sell my creations at small church fetes and local craft fairs. My aim is not to make a fortune, but just to allow me to purchase more materials to enjoy my hobby!
